

wellinformed... 

*Which comes first...  
investment or profit?*

**In a corporate environment which is increasingly more competitive the wellbeing and productivity of your team becomes even more important. Our association with Wellness international, I believe, gives us such an edge and provides real benefits to both the large proportion of participating individuals, and the organisation as a whole. In my experience this a programme without parallel and one which we value tremendously.**

*Gordon Baird*

Managing Director, adidas UK and Ireland Ltd.
